

Our History

Delivering More Broadband and More Choices to Local Communities

Since 2003, PAXIO has been dedicated to providing state-of-the-art fiber optic networks to their customers, setting the new standard for internet connectivity. PAXIO enables home users to get online 100 times faster than standard services, allowing them to take advantage of the latest offerings on the Internet. PAXIO's enterprise and small business services provides organizations with faster data connections and advanced IP services than ever before, ensuring they stay ahead of the curve and meet their technology needs for today and the future.

Our Mission

To provide best-in-class, dedicated fiber optic internet that can withstand the ever increasing demands for speed and bandwidth, coupled with friendly, local client services to support all of our customer's needs.

Our Vision

To connect every resident and business in the San Francisco Bay Area with state-of-the-art dedicated fiber optic internet.

PAXIO
DEDICATED TO YOU
