

PAXIO

Business Overview

PAXIO elevates your property with nearly unlimited bandwidth using state-of-the-art fiber optics directly into each residential unit.

A future proof foundation
for growing business.

Benefits to the Property:

Increased property value and rental prices

Free installation

Future proof fiber optic infrastructure

Higher quality tenants

Dedicated fiber connection to each suite

Benefits to the Tenants:

Your tenants deserve the best when it comes to their internet, and PAXIO ensures they won't need to settle by offering the following:

- ✓ Dedicated bandwidth for each business
- ✓ Multiple service levels available
 - *Standard Office (Small Business)*
 - *Professional Office (Enterprise)*
 - *Dark Fiber*
 - *EPL*
- ✓ All service levels are symmetrical (same upload and download speeds)
- ✓ Burstable to 10 gig*
- ✓ 100% SLA*

* On Professional Office products

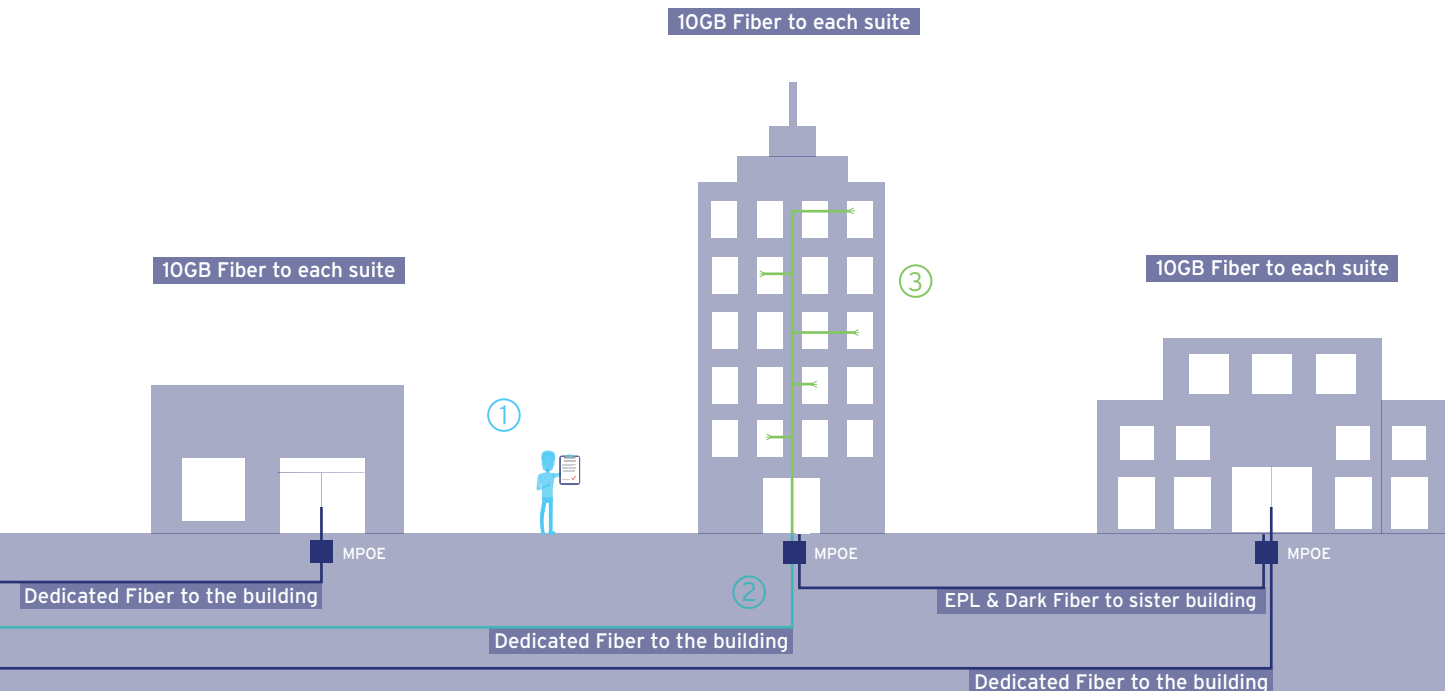

How Our Fiber Connects

← To the Internet

Internet
Access Point

How it Works:

- ① Sign Access Agreement.
Timing varies based on complexity of agreement.
- ② PAXIO pulls fiber into the building. *Between 1 to 6 months depending on the proximity of the fiber to the property.*
- ③ PAXIO connects the units with dedicated fiber. *Takes approximately 1 to 2 months but may vary depending on the building infrastructure.*
